

Why Invest in Small Cap Canadian Equities?

The Canadian small cap equities market presents unique opportunities to outperform other asset classes due to inefficiencies created by factors such as a greater number of companies, less research coverage, and lower institutional ownership. Canadian small cap equities are also relatively inexpensive and provide a great risk adjusted returns compared with U.S. peers when measured by price-to-book and price-to-sales ratios. Our strategy invests in equity securities and trust units of small Canadian organizations in order to achieve rapid growth of capital across the various sectors and industries.

Philosophy

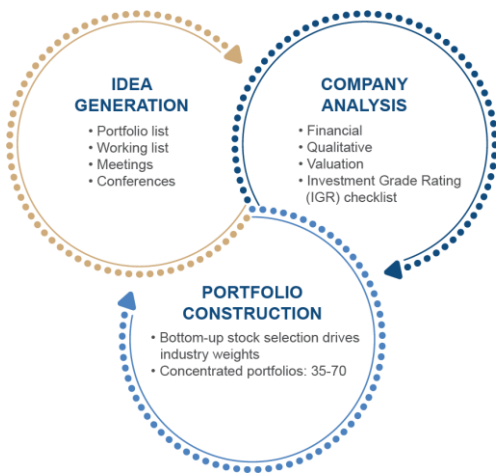

We believe that superior investment returns are achieved by taking a long-term, bottom-up, value-oriented approach to investing based on detailed fundamental research and analysis. Our proven philosophy revolves around two long-standing core concepts:

Understanding Quality

- Focus on key business drivers (competitive advantage, pricing, cost structure, growth etc.) and the predictability of those drivers
- Assessing business performance in the last downturn and subsequent changes to business model
- Analyzing true free cash flow conversion of the business
- Assessing capital allocation history and balance sheet strength
- Track record on governance and shareholder alignment.

Disciplined on Valuation

- Wait until expectations are low and risk/return more attractive
- Assess value relative to:
 - The company's historic valuation
 - The broader market and its global peers
 - The quality of the company
- Understand changes in the market and/or business and their structural impact on valuation

Investment Grade Rating (IGR) Checklist Summary

**Investment returns are gross of investment management fees and include reinvestment of dividends and income. Values change frequently and past investment performance may not be repeated. FGP Small Cap Canadian Equity Fund was launched January 23, 2006. Historical performance from February 28, 2002 to February 28, 2006 is based on a segregated Small Cap Canadian Equity portfolio, whose investment guidelines were substantially similar to those of the Fund. From March 1, 2006 onwards performance is based entirely on the Fund. S&P/TSX Index Data. Source: TSX Copyright (2024) TSX Inc. All rights reserved.*
